

Pineapple
Consulting Firm

Go from “**data-frustrated**” to “**data-confident**” with decision-driving **dashboards**

Who we are?

Fractional Analysts

Your **outsourced, part-time analysts**.

We help you **automate** and **visualize** your data so you can actually use it, and **analyze** it so you're always maximizing your performance.

What we do?

We help you become more **data-driven** by providing **custom-built dashboards** and **ongoing analysis** that help inform your strategy.

By service

- custom dashboards
- web-based standard dashboards
- excel tools
- business intelligence and analytics services

Common Questions

- **Can you pull the data we need?** - almost always, yes! But we do have to test how automated it can be
- **How many KPIs are included?** - up to you! Usually 4-6 though
- **What platform is the end dashboard in?** - we're flexible depending on your business goal
